RESPONDS TO REQUEST OF OLD SOLDIERS

MONTICELLO KY., Oct. 4, 1904.
EDITOR SHERRILL JOURNAL.
DEAR SIR—I have been requested by the old Soldiers of Pulaski county to define my views as to the pension policy of the Government as to them, through the medium of the Journal. In deference to this desire, and the purpose of complying with this wish, I will say that I was too young to be a soldier in the late Civil War, and know of the soldier, not from experience, but from history, which tells of his many heroic deeds; of his privations and sufferings for his country and his convictions. Every citizen of this country owes allegiance to the Government in return for the protection which the Government affords and guarantees to him of life, liberty and property, and when his country, by the proper constituted authority for that purpose, for cause to do just-justice, a step declares war, it is the duty of the citizen to promptly answer the call to arms, the motive that should actuate him is so high a duty should be, and if a true soldier is simply patriotism and love of country and without the slightest monetary or selfish thought. This must be true to order to avoid embarrassing the soldier and his calling, and entitle the citizen to that admiration and respect of all which his heroism, bravery and courage displayed in battle, his self sacrifice, privation, hardships in camp and duty well performed always begets in his fellow countrymen.

MINERAL WATER.

It has been Recently Found on the Farm of J. C. Morrison, Taylor County.
This well on the Campbellville and Greensboro pike, five miles from the former place and seven from the latter. The well is 88 feet deep and the water is as cold as a person would want it. It is situated on Mr. J. C. Morrison's place, who is making preparations to take a few boarders.
The following gives a full explanation: Agricultural Experiment Station, State College of Kentucky.
Lexington, Ky., July 30, 1904. Mineral water sent by J. C. Morrison, Campbellville, Taylor County, Ky., July 18, 1904. The sample was received July 21, 1904, in pint bottle. The water smelled strongly of hydrogen sulphide and there was a deposit of sulphur in the bottle.
ANALYSIS.
The water contains 329.9 grains of solid matter to the gallon, composed mainly of chlorides and sulphates of sodium, calcium and magnesium, some calcium carbonate and traces of iron, potassium and lithium compounds and a trace of borates. The water contained also a very considerable quantity of hydrogen sulphide. Is very good salubrious water.

Democratic Ticket.

For President,

For Vice-President,
HENRY G. DAVIS,
West Virginia.
For Congress,
GEO. E. STONE,
Wayne.
For Assessor,
C. G. JEFFRIES.

ANNOUNCEMENTS.

For Circuit Judge.

We are authorized to announce that H. L. THURMAN, of Washington county, is a candidate for Circuit Judge in the district comprising the counties of Green, Taylor, Marion and Washington, subject to the action of the Democratic party.

There are more calls for Hon. W. J. Bryan, than any other Democratic speaker in the entire country. Mr. Bryan never lost his prestige by the defeats of 1896 and 1900, but is to-day one of the ablest and truest American statesmen. Mr. Parker is not his ideal in many respects neither is the platform just to his liking, but where Mr. Parker is weak, Mr. Roosevelt is weaker, and where the platform is defective the Republican candidate is even more so. There are millions of voters who see as Mr. Bryan sees but will vote it straight because it is decidedly better than the opposite. True believers in bimetallism have not made a surrender but are fighting a battle on issues common to all who oppose centralizing all governmental functions to a Federal head. The principle of State rights still lives and taxation without representation is foreign to American liberty.

Roosevelt is only satisfied when he is doing something to humiliate the South. The last negro postmaster appointed for South Carolina is name Murray. Let every man who believes in white supremacy vote the Democratic ticket.

The Republican party is the only organization in existence that has nerve enough to try to make the people believe that a high tax redounds to the general good. Since the Dingley law was enacted 238 trusts, covering nearly every article of commerce have been formed and not one of them with the purpose of aiding, the public. The formation of trusts have knocked out of employment thousands of laboring men and instead of reducing the price of the article controlled have advanced it. Tariff is the mother of trusts and the great common people the victims.

We hear nothing of the "full dinner-pail" in this campaign which carried McKinley through four years ago. The truth is that the pail is not so full now and soup houses have been established in several of the large cities. The protective tariff preys on one class to build up another.

Quite a number of Adair county citizens heard Hon. John Sharp Williams at Louisville. It was a great speech delivered by one of the ablest men of the nation.

If the people of this district want to be represented in Congress by an able man they will vote for Hon. Geo. E. Stone.

Geo. E. Stone is an able, clean man and as a representative in Congress would be a credit to the district.

When you go to the polls on election day stamp under the rooster and let your vote go Gal-lager.

Clothing, Cloaks, Dress Goods, Shoes, Etc., Etc.

CLOTHING.

We have "STACKS" of Clothing in our Clothing Department. We think that we can please anybody in CLOTH, FIT and STYLE. There is no sense in buying so-called Tailor-made stuff from Chicago Sweat Shops, when we can sell you a "Criterion" Suit or Over Coat, better goods, better fit, and save you 8 or 10 dollars on the outfit. We invite you to inspect our Clothing Stock.

CLOAKS.

We carried over no Cloaks from last season, hence our stock contains nothing but the newest styles. Its the most immense stock of good things you ever saw outside of the City stores. Can fit any size, form or figure. Also big stock of FURS. Come and see them.

SHOES.

If you will take the trouble to inquire of the people of this community that wear nice Shoes, where they get them, you will find that three-fourths will say, from Russell, Murrell & Co. That sounds like "Hot air," doesn't it? Try it once and you will see it is true. We realize that unless a customer gets a shoe that has comfort, style and wear in it they are not satisfied. Our lines of Custom-made Shoes embrace all these qualities. This season our stock is specially strong in Mens' and Ladies' Fine Shoes. Our Mens' Patent Cords and Kids, Vici Kids, Cordovars and Kangaroos, made in latest cuts on new lasts, are beauties. Ladies who wear Fine Shoes know that our Krippendorff-Dittman line cannot be excelled for quality, style and fit. The styles are "Up to date." Just as good as you can buy from any City Shoe Store. Parties owning unimproved property on square are paying tax and receiving nothing on their buildings while four or five good business houses could be rented at good prices if they would only build. Put up some good substantial business houses and see how quick they will be taken.

MARRIED.

Dr. T. A. Smith, son of Mr. Green B. Smith, of this place, was married Wednesday, the 5th inst., to Miss Rove Oates, of Wayne county, Rev. T. L. Hulse officiating. The bride is a niece of Mrs. G. A. Smith, of this place, and is a young woman of many lovely traits of character. The groom is a dentist by profession, and is a young man of excellent standing. Soon after the ceremony the happy couple left for Cincinnati where Mr. Smith will spend the winter in school.

The First National Bank of Columbia was one year old last Saturday, and as a yearling it is one of the strongest in Southern Kentucky. Its President, Mr. J. O. Russell, and Cashier, Mr. E. H. Hughes, are men who are cautious business men and have given entire satisfaction in their respective positions, both to the stock-holders and the people who transact business with that institution. Up to date the deposits and loans far exceed the average Bank of equal size in country towns, and after paying all expenses a good interest is left for its owners. In justice to all parties we feel safe in saying that the prosperity of the above mentioned institution has not molested the old Bank of Columbia, that has been in business for nearly twenty years and has stood the pressure of panics as well as enjoyed the great seasons of prosperity. The Bank of Columbia and the First National Bank are here to stay and the onward march of our town and country and the very fact that the National has not hurt the business of the other Bank shows that new business has been secured, that the field of operation has been broadened. This should be encouraging to our people. This field is ample for both and the town and country is just proud of them.

If Columbia had a good system of water works it would have a rapid growth and enterprise and push would be manifested on every side. Water works would do for the town, in general, more than any other enterprise yet secured. The very fact that a low rate of insurance would be established, that the convenience otherwise to be derived from a good water supply, under pressure, would induce many to cast lots with us, educate their children and engage in business. It would, in our judgment, prove a profitable investment and we trust that some one who has idle capital will investigate. With our schools, telephone system, new sewerage, completion, and the electric light plant a certainty, together with the many other advantages of this section, Columbia would outgrow and outdo any inland town in the State. Gentlemen of the town, this proposition is worth considering and so long as it is delayed so long until the growth of Columbia be retarded.

Our readers will remember that about six months ago Mr. G. W. Roberts, of Peyton, bought of the heirs of the late W. J. Winfree, in the eastern portion of this county the white oak tract of 900 acres of land for \$1,800. Soon after the purchase Mr. Roberts transferred his deed to Mr. J. C. Couder, of Middleburg, Ky., and hands were at once engaged to cut and turn the timber into staves. At this writing there have been 170,000 made and about 30,000 more will be secured, making a total 200,000. A great many of these staves have been sold on the market, and the estimate of the full amount that will be received, when all are sold, is placed at \$6,400. Course it cost a considerable sum to get these staves to market, but after deducting all expenses there will be an immense profit.

Mr. R. H. Dunbar, of Jamestown, W. E. Garnett, of Columbia, and Evan T. Keltner, of Keltner, were made Royal Arch Masons in Columbia Chapter last Friday. The hall was well filled with companions and every one enjoyed the work.

Mr. Conwell Phelps, of near Eto, was seriously hurt in Wayne county in a wreck, by a wagon running over him. Mr. Phelps is a drifter and was engaged in that work near Steubenville.

RESOLVE TO NOT KISS.

Recently have a dozen pretty Georgia girls discussed kissing from various standpoints—hygienically, financially, etc., and decided that it is a silly and unsanitary practice. Accordingly they organized as the Kissing Club and adopted a constitution, which provides among other things:

"I pledge myself never to kiss one except father, mother, brother, sister, husband and children. I pledge myself furthermore to never kiss my betrothed until I become his wife."

If I fail to keep this pledge I will pay a fine of \$25 a day the club to erase my name from the roll.

On the marriage of any member of this club in good standing each member shall pay \$5 to the treasurer, who shall present the amount as a bride gift to the bride.

The amount paid in by those who fail to keep the pledge shall be held by the treasurer as a fund to be divided among those who prefer spinsterhood.

All members of the club must attend the marriage of members, and all hymeneal ceremonies will be arranged by an appointed committee.

Any members who apply for divorce shall pay to the treasurer \$50 and have her name removed from the roll.

On the death of any member in good standing each member shall pay to the treasurer \$5, to be used in erecting a shaft to the deceased, which shall be a marble pillar three by four, surmounted by a figure of a woman in Greek costume three feet high, with the right finger of the right hand touching closed lips. The only inscription shall be: "Here rests a modest, sensible and faithful member of the A. K. C."

Fortunately for the Georgia boys the A. K. C.'s failed to insert a clause prohibiting hugging. But when a member is being hugged he will murmur the warning: "Please remember I am an A. K. C."

The mystery of the three attempts to wreck the battleship Connecticut, now in process of completion at the New York navy yard, remains unsolved. A rigid investigation has been started.

The disappearance of editor Dearbon, of the Guthrie Graphic, is accounted for in a letter from the publishers of the Free Press, at Stuart, Ark., in which it is stated that a man who gave his name as Dearbon and answered the description of the missing editor appeared there in financial straits and departed for Texas after he was aided by newspaper men.

GEO. O. BARRETT.

Hart County News: The world-famed evangelist, Geo. O. Barrett, has just closed a series of seven sermons at this place. He arrived here one week sooner than was expected, owing to the fact that he failed to get a place to preach in Glasgow. Owing to the radical views he proclaims, his congregations were not large, yet he had a right good hearing. Some were delighted with many things he taught; a few were offended. The world will have to confess that he has a spottish character; and although they may never publicly serve his God they will be bound always to love him. And if his God is not the right one, all who have loved him will be guilty of idolatry in loving him; for to serve any god is to love him; and to love the wrong god is to be guilty of idolatry toward the right one. His God is the sweetest character of Duty that it is possible for man to imagine; then if his God is not the right one, everybody will agree that he should be, for surely our Duty should have at least as high a character poor fallen man can think of.

HEALTH AND BEAUTY

Good health requires plenty of fresh air in the sleeping apartments. For a night only one should sleep under a day with a little diluted alcohol or witch hazel.

Diluted alcohol applied daily will prove beneficial in excessive perspiration.

The juice of an orange in a cup of hot water, taken before breakfast is beneficial as food for indigestion and constipation.

For a severe headache a towel wrung out of hot water and applied to the back of the neck will often give instant relief.

Stitches on the fingers that will not yield to ordinary methods can be removed by dipping the fingers in peroxide of hydrogen.

A healing ointment for all skin eruptions is made by mixing thoroughly one part of bi-muth to three parts of white vaseline.

The constant use on the teeth of powdered charcoal or pumice stone is injurious, as such powders break the enamel and the teeth withers quickly decay.

An Iowa Judge has established a fine precedent and earned the overlying gratitude of his agricultural constituency by exempting farmers from jury duty during the busy season. This ought to be done everywhere. Think of jailing farmers from the harvest field or from the place when the crop is suffering for work, to serve on a jury trying some inconsequential case. There are plenty of other men to do such public service and no farmer should be cooped up in a court room between late spring and early winter. Just now the raising of crops is the most important of all work, as so it depends on the prosperity of the people. Courts, anyhow, ought to be adjourned during the busy season, so that judges, lawyers and other officials may obtain needed rest and recreation.—Ky. Farmer-Breeder.

MONEY WILL BE KEPT AT HOME.
All the money raised by the Republicans of Kentucky will be kept at home and none will be sent to national headquarters.

A member of the Republican State Campaign Committee is authority for the following statement: "It was our intention to send our money to Chairman Cortelyou in New York. Mr. Yerkes, Mr. Ernst and others advised this plan. However, within the past ten days Cortelyou has written to Mr. Ernst, telling him to use all the money in Kentucky. He said other States would be looked after satisfactorily and that we could spend what we had in making a fight here. He suggests that we might reduce the Democratic representation in Congress. It was then that Mr. Ernst decided to make a fight in the Third, Fifth, Eighth and Ninth congressional districts."

"It is a fact that we have been quite successful in raising campaign funds. Our campaign fund at present is much larger than it was in 1900, and by election day we will have all the money in Kentucky that we need."

It has been apparent for some days that the Republicans had no intention of sending any money out of the State. It is also plain that they intend to make a hard fight for the four congressional districts named. The bulk of the money, however, will be spent in the Fifth district.

HARD WINTER AHEAD.

The weather-wise are predicting a hard winter and declare that it is not far off. In proof of their foretellings they cite the fact that the buck on the corn is not only unusually thick but extends out over the ear farther than common. The skin on the onion is also said to be unusually heavy which is regarded as another sign.

Hinters say that the fur on rabbits and squirrels and other game is more abundant this year than for several years past, which is a never failing indication of a hard winter. The goose bone specialist has never been heard from yet, but in the light of these omens it is expected that he will join in the chorus for a record breaking sleage of cold weather.

Town killers may be properly classed as follows: First, those who are out of town to do their shopping; second, those who want a quiet town in stead of one of push and bustle; third, those who imagine that they own the town; fourth, those who derive public-spirited men; fifth, those who appear everything that does not appear to benefit them; sixth, those who oppose everything that does not originate within themselves; seventh, those who seek to injure the credit or reputation of an individual.

Touch water and corns with a tiny brush or feather dipped in iodine and they will gradually disappear.

Lemon juice and raw tomatoes will remove stains from the fingers.

"Stand by Judge Parker," says W. J. Bryan. "Judge Parker believes in the gold standard. I believe in bimetallism, but I can vote for him in order that through him the country may rid itself of an imperial policy. What if he does believe in the gold standard? I never disliked an advocate of the gold standard so much that I would refuse any aid that he was willing to give toward bringing to the country any good things, and Judge Parker's election would bring us relief from imperialism. If any other democrat is still in doubt as to how to vote, let me say that Judge Parker voted for me when the restoration of bimetallism was the paramount issue. If he could vote for me when the money question was paramount, I can vote for him when we are confronted with another and greater issue than the money question."
